Elba Army Officer Is Transferred To Duty In England

Captain Charles W. Brown was selected as one of seventy officers of the USAF to represent the U. S. Air Defense Command in the Royal Air Force and the United States Air Force Exchange Program.

Capt. Brown, along with his family, the former Miss Oella English and their two sons, Buddy Brown and Tommy Brown are to report the latter part of July to Patrington RAF Base, England. Capt. Brown and his family will be the only Americans stationed at Patrington RAF Base. Capt. Brown is a specialist in Radar and will serve in his new assignment as "Sub Watch Commander." They are scheduled to be in their new location for two years. Patrington RAF Base is located at Hull-York, England about one hundred and ninety miles north of London on the coast of the North Sea.

Exchange personnel for this exchange program selected on the basis of highest efficiency ratings.

The Patrington RAF Base will provide control for the new British All Weather aircraft, the Lightning-P1.

Capt. Brown is the son of Mr. and Mrs. Lewey G. Brown of Enterprise, Ala., and Mrs. Brown is the daughter of Mr. and Mrs. J. H. English of Elba.

There has been 70 officers from the USAF, all experts in their field, selected to represent the US Air Defense Command in this exchange program.

Capt. and Mrs. Brown have been stationed at MacDill AFB, Florida, for the past several years.

DEATH TAKES NO HOLIDAY

The grim spectre is ALWAYS on the job . . . never more so than when most folks are off their Holidays, week-ends and vacation time are precisely when the tragic toll of traffic accidents mounts highest. More people on the road in more of a hurry multiply driving hazards. That's the time to drive with more caution, more patience, more courtesy.

You take your life in your hands when you take the wheel of your car. Take a little longer to get where you're going . . . and live a lot longer!

Broilers Are Tops On Best Buy List Of Thrifty Buyers

AUBURN — Week after week broilers seem to be firmly fixed on most everyone's best buy list. And with good reason, too. "Broilers cost less and taste better than ever before," notes Dorothy Overby, of Auburn Extension Service.

Once the small birds were just a by-product of the egg industry. Now, growing broilers is a business in itself. As the business developed, new methods were used to produce better birds in less time and on less feed.

Miss Overby adds, "If you've been tempted to try out the charcoal broiler, the small chickens are tailor-made for that purpose. Split in half or in pieces, they are perfect for barbecuing."

"But no matter how you decide to use them, you will find that broilers are a tasty and thrifty choice for this month's menus," adds the Auburn Specialist.

Luck and Work Is Ingredients For Growing Camellias

AUBURN — Recently, many gardeners have noticed large pinkish - green growth on the stems of their camellia plants.

Auburn Extension Service ornamental Horticulturist, Troy Keeble says there is no need for worry. "These are only seed pods growing where the blooms were pollinated," he points out.

Of the many thousands of camellia seed planted, few plants are good enough to be considered on the bloom or growth merit. Therefore, the reward from growing camellia seed is uncertain.

"Camellia seed usually ripen later in the summer. This ripening can be determined by the cracking open of the seed pod and the visible brown seed," explains Keeble.

This seed should be picked as soon as the husks begin to crack because seed planted when they are just beginning to mature, germinate and grow much quicker than those left on the plant and harvested from the ground later in the season.

"A sure-fire method of germinating camellia seed is to plant them in damp peat moss in large jars or flats. Mix the seed thoroughly in the peat mixture to get good distribution and to keep the seed from touching each other," adds Keeble.

"In cooperation with Georgia peanut producers we hope to step up our effort in the future, to provide demonstrations and to run a recipe contest for school lunch cooks," Mr. Knowles said. "Peanut butter is one of the single most nutritious foods that our children can eat, and greater consumption in the schools will also encourage better eating habits at home."

The goal of the Alabama Peanut Producers Association, financed by \$1 per ton grower contributions at the time the crop is marketed, is to increase U. S. consumption of peanut products, especially peanut butter, so that farmers will be able to increase acreages and, in time, make higher net incomes on the crop.

Mr. Knowles also announced that the "Peanut Carnival" summer promotion which Alabama and Georgia growers are sponsoring jointly with the food stores in the two states and in northern Florida has proved so successful that it is being extended one week.

"The promotion period will now run through Saturday, July 8," he said. Peanut growers have furnished all stores with display material and coordinated news on the promotion. Supermarkets and manufacturers of peanut products are cooperating with special sales and values during the "Carnival" days. Banks, newspapers and civic groups in many cases have also joined the farmer effort to increase consumption of one of Alabama's top cash crops, he said, "and we would like to extend our thanks to everyone concerned."

It was the trustees' way of expressing gratitude to the governor for the present building program at Alabama College.

JEAN TAYLOR PAYNE OF ELBA, is among the 1961 graduates of Stanford University, Stanford, Calif., with the degree of A.M. in Education.

Damage caused by fires and lightning on the nation's farms last year amounted to \$165 million.

Elba to Get New 2 - Story Building

U. S. Nearly Doubles Peanut Butter In School Lunch Plan

DOTHAN — Directors of the Alabama Peanut Producers Association today hailed announcement by the U. S. Department of Agriculture that 10,000,000 pounds of peanut butter will be furnished to the nation's school lunch program beginning next September. The amount is nearly double the average figure for the past 10 years.

"This is an action we have been seeking for some time," asserted H. H. Knowles, of Headland, association president. "We stand to benefit directly because 95 per cent of this peanut butter is made from Alabama - Georgia peanuts."

Bids Asked
The call for bids for the manufacture of the 10,000,000 lbs. of peanut butter, to be delivered by September 22, has just been made in Washington, Mr. Knowles said. Last year schools were only furnished 6,000,000 pounds. The average for the past decade has only been over 5,000,000 pounds of peanut butter.

"We have been working with the Department of Agriculture for some months through our promotion program in the hope that this increase would be made," he said. "In cooperation with school food service specialists our home economists have developed a number of recipes which will help to give school cooks new ideas for use of the peanut butter."

Step Up Efforts
"In cooperation with Georgia peanut producers we hope to step up our effort in the future, to provide demonstrations and to run a recipe contest for school lunch cooks," Mr. Knowles said. "Peanut butter is one of the single most nutritious foods that our children can eat, and greater consumption in the schools will also encourage better eating habits at home."

The goal of the Alabama Peanut Producers Association, financed by \$1 per ton grower contributions at the time the crop is marketed, is to increase U. S. consumption of peanut products, especially peanut butter, so that farmers will be able to increase acreages and, in time, make higher net incomes on the crop.

Mr. Knowles also announced that the "Peanut Carnival" summer promotion which Alabama and Georgia growers are sponsoring jointly with the food stores in the two states and in northern Florida has proved so successful that it is being extended one week.

"The promotion period will now run through Saturday, July 8," he said. Peanut growers have furnished all stores with display material and coordinated news on the promotion. Supermarkets and manufacturers of peanut products are cooperating with special sales and values during the "Carnival" days. Banks, newspapers and civic groups in many cases have also joined the farmer effort to increase consumption of one of Alabama's top cash crops, he said, "and we would like to extend our thanks to everyone concerned."

It was the trustees' way of expressing gratitude to the governor for the present building program at Alabama College.

Damage caused by fires and lightning on the nation's farms last year amounted to \$165 million.

Despite "all the tea in China" consumed by 650 million Chinese, the 53 million Britons still hold the record for tea drinking. Last year they used half a billion pounds of the leaf in their natural brew. That's almost 10 million pounds more than in 1959.

MAKES DEAN'S LIST
Tom B. Vaughan, Jr., pre-medical student at the University of Alabama, was included on the Dean's List with all A's for the Spring semester.

Get Rid of Pesky Flies by Use Of New Insecticides

There is no mystery behind a successful fly control program. Auburn Extension Service Entomologist, W. A. L. Grimes explains, "A good control program requires a thorough plan of sanitation coupled with the use of modern insecticides."

In general, according to Mr. Grimes, there are four kinds of flies that cause annoyance—the house fly, horn fly, stable fly, and horse fly. Learning to identify them and using the correct treatment can help you do a better job of control with less cost. But you can't overlook the sanitation angle, adds the entomologist.

Save Time On Rainy Week Days With Automatic Dryer

Do these rainy days make you wish for an automatic dryer? Auburn Extension Service Home Economist Elizabeth Bryan says, "These dryers can save time and energy by doing as good a job as outdoor drying. A turn of the controls gives you all the conditions of a good wash day."

Operating cost depends on the amount of use and the cost of utilities. In general, an electric dryer will use about 2.7 kilowatt hours per load while gas dryers use about 9.6 cubic feet of gas per load. The average family dries about 16 loads a month.

To estimate operating cost, check local utilities rates, then figure the cost on the basis of your own estimated use, adds Miss Bryan.

Just like any other appliance, a dryer must be used correctly for best results she adds.

MARY LEMMIE VAUGHAN Mrs. Mary Lemmie Vaughan, 83, of Elba, died Wednesday, June 28. She is survived by a son, Paul Vaughan of Ozark, two daughters, Mrs. J. M. Faris of New Castle, Pa., and Mrs. Arthur Loviche of Montgomery; a brother, Cape Haden; and three great-grandchildren. Funeral services were held from the First Baptist Church with burial in Evergreen.

Coffee Teachers Go To Convention

Five Coffee county teachers registered in attendance at the 90th annual convention of the National Education Association held last week at Atlantic City, N. Y.

They were: Mrs. Ruth Hawkins, teacher at New Bedford; Lloyd M. Crook, president of the Opp Teachers Association; Mrs. Annie L. Vaughan, teacher at Fairview Junior High School; Mrs. Addielean Prescott, official NEA delegate from this county; Mrs. Cupidean M. Crook, teacher at Fairview and state delegate.

State Takes Part In War Observance

Richmond, Va. — Alabama will participate in the forthcoming re-enactment of the First Battle of Manassas.

Gov. John Patterson has authorized a detachment of about 15 Alabama National Guardsmen to be present for the Civil War Centennial ceremony. Several other states will also be represented.

The battlefield ceremony will take place July 22-23. The Alabama troops will come from the First Battle Group, 167th Infantry of the 31st (Dixie) Division. This organization is a descendant of the Fourth Alabama, famous in the real Manassas battle.

Alabama Outlays For Welfare Pass \$100 Million Mark

MONTGOMERY — Alabama's public welfare program, including old age pensions and medical care for the aged, will pass the \$100 million mark next year for the first time in state history.

If the State Legislature approves the welfare requests, the 1961-62 fiscal year budget will total \$102 million. It's \$59 million this year.

Urges Passage
"I wish to strongly urge the Legislature to appropriate the funds necessary to expand our programs of public assistance," Gov. Patterson said this week. "I am anxious that this administration do everything possible to aid the old people of this state who are in financial need."

Pending on the House calendar is a measure which would enable the State Department of Pensions and Security to launch a medical care program for needy persons who are not now drawing old age pensions. A medical care program for pensioners was started April 1.

To operate the medical care programs and provide across-the-board increases in public assistance grants, the department has requested an increase of \$1.1 million from the General Fund. This would boost the General Fund appropriation from \$7.8 million this year to \$8.9 million next year.

Other Sources
The Department of Pensions and Security also gets state funds from many other sources, liquor, beer, sales, cigarettes and ad valorem taxes, to name a few. The Federal government matches state funds at about a three-to-one ratio.

For the medical care program, the government puts up \$4 for every \$1 in state money.

Eat More Peanuts Patterson Advises

Montgomery — Alabama's peanut industry is sponsoring "Peanut Carnival Time" during the next two weeks.

Led by Gov. John Patterson, peanut producers are urging Alabamians to buy and use more peanuts and peanut products. Some 18,000 farm families in the state depend on peanut production for their livelihood.

In kicking off the peanut promotion, the governor called on everyone to eat more peanut butter, peanuts in the shell, salted peanuts, peanut candy, peanut butter crocker sandwiches, peanut oil and all other forms of peanuts.

Joining Gov. Patterson in his call-more-peanuts plea was H. H. Knowles of Headland, president of the Alabama Peanut Producers Assn.

There is a higher demand now for soybeans than for any other farm product.

BY ANY NAME, IT STINKS...

A rose by any other name smells just as sweet, and a polecat by any other name stinks just as bad.

The APC Board, at the assistance of Administrator Ed Azar, adopted a proposed city ordinance which would punish a "teen-age" buyer of alcohol as well as the seller. This ordinance was sent to the cities located in Alabama's 20 "wet" counties and more than 100 municipalities have adopted it. There is a move under way to have the Alabama legislature write it into state law.

It looks noble on the surface. Columnist Bob Ingram, of The Montgomery Advertiser, regards as one-sided the present law which punishes the seller but lets the buyer go scot-free.

Now let's look beneath the surface. Before a defendant can be convicted of any crime in an American court, evidence must be presented to prove his guilt. This evidence can be presented only through witnesses. But in American courts—and rightfully so—no witness can be forced to testify against himself.

So let's consider any case in which someone is accused of selling alcohol to a high school boy. Not one time in a thousand will anyone witness the transaction except the buyer and the seller. Under present state law, when that boy is found under the influence of alcohol, he can be hauled into court and compelled to testify who sold it to him because he himself, has broken no law. Under the proposed Azar law, the boy would naturally refuse to testify because it would incriminate him, and there would be no way to make him testify.

The proposed Azar law, already adopted by many cities by ordinance, would deny the prosecution the only source of evidence it may have to convict a seller of alcohol to a minor. In the most intense efforts to enforce the Eighteenth Amendment, there was never any serious effort made to make the buyer of liquor guilty with the seller. If there had been, every prohibition agent in America could have been sent to jail with the bootleggers.

Those who favor the Azar law say that the seller sometimes sells in the mistaken belief the boy is more than 21 years old. Actually, if there were any doubt, he only needs ask the boy: "Let me see your draft card."

21 YEARS AGO—

FROM OUR EARLY FILES...

Members of the Board of Directors of the Elba, Enterprise, Goodman, Kinston, and Zion Chapel Cooperative Canning Associations, together with the vocational workers assigned to these respective plants, held a series of meetings to check the year's work and make plans for the coming season.

Mr. and Mrs. Boots Deal visited relatives in Jackson, Miss., last week.

The Business Women's Circle of the Baptist W.M.U. held a delightful meeting in the home of Mrs. R. L. Martin for a mission study. Miss Mabel Brunson, president, presided and opened the meeting with the song "Rock of Ages", followed by prayer by Mrs. J. A. Timmerman. After reading the minutes, by Mrs. Elzie Sellers, routine matters were disposed of.

The Circle welcomed two visitors Mrs. L. P. Mullins and Miss Ruth Timmerman of Dothan. Guests were Miss B. B. Brunson, Miss Elzie Sellers, Miss Lottie Fortner, Mrs. J. A. Timmerman, Miss Zedie Rowe, Mrs. R. L. Martin and Miss Ruth Timmerman.

Mrs. H. N. Shaw and baby of San Diego, Calif., were guests of her parents, Mr. and Mrs. E. L. Harper.

Mrs. Sam Sawyer was hostess to a delightful Coca-Cola party in the home of her Aunt, Mrs. C. E. Dorsey, honoring Mrs. Tommie Thompson of West Palm Beach, Florida.

Those making up this delightful party were Mrs. Thompson, the honoree, Mrs. James Wise, Mrs. Sam Rowe, Mrs. Heelin Michel, Mrs. Harold English, Miss Sara Shealy, Miss Louise Tucker, Mrs. James Martin, Mrs. Claude Dorsey, Mrs. E. P. Geiger, Mrs. Roy Ellis, Miss Jeanne Richardson, Miss Velma Patterson, Mrs. Gethel Pinkard, Mrs. Charles Hayes, Mrs. C. E. Dorsey, Miss Neil Brock and the hostess, Mrs. Sam Sawyer.

LEGAL NOTICES

SOUTH ALABAMA ELECTRIC COOPERATIVE, INC.

TROY, ALABAMA

NOTICE OF ANNUAL MEMBERSHIP MEETING

The regular meeting of the membership of South Alabama Electric Cooperative, Inc., will be held on Tuesday, July 25, 1961, beginning at 3:00 P.M. at the National Guard Armory, Troy, Alabama, for the purpose of taking action on the following matters:

1. Elect trustees.
2. Transact any other business that may properly come before said meeting.

6-22, 6-29, 7-6, 7-13

PUBLIC NOTICE

THE HOUSING AUTHORITY OF THE CITY OF ELBA, ALABAMA, INVITES FOR PROPOSALS TO PURCHASE RESIDENTIAL AND COMMERCIAL PROPERTY IN THE CLAXTON STREET URBAN RENEWAL REDEVELOPMENT AREA.

PUBLIC NOTICE is hereby given that THE HOUSING AUTHORITY OF THE CITY OF ELBA, ALABAMA, (hereinafter referred to as the Agency) has issued an invitation for proposals to purchase certain residential and commercial property located in the Claxton Street Urban Renewal Project and being the parcels of land described hereunder:

Lots or parcels numbered 5 through 21, as residential property and lots or parcels numbered 1, 2, 3, and 4, as commercial property, according to Land Use and Street Plan Map of Claxton Street Project, Ala. R-2, on file in the office of the Elba Housing Authority, Elba, Alabama.

All proposals shall comply with the Agency's invitation for proposals and shall be submitted in a sealed envelope at the office of the Agency, Elba, Alabama. All proposals shall be subject to Redevelopment Plan as may be amended. No proposal received after ten o'clock (10:00 A.M.) on July 28, 1961, will be considered.

Copies of the "Invitation for Proposals" and all further information about the Property, the Claxton Street Project, Ala. R-2, and other matters in connection therewith may be obtained at the office of the Agency, Elba, Alabama.

The Elba Housing Authority reserves the right in its sole discretion to determine which proposals are the most advantageous to said Authority and the right to reject any or all proposals and to waive any informalities and/or irregularities in connection therewith.

This is the 27th day of June, 1961.

THE HOUSING AUTHORITY OF THE CITY OF ELBA, ALABAMA

A. G. JONES
Executive Director

One Killed, 9 Hurt In Highway Crash

J. M. Pouncey, 33, of Greenville, was killed and nine persons injured in an automobile collision Saturday, June 24, near Brantley in Crawford county. Pouncey was driver of a car which collided with a car driven by Johnny S. Bindeman, 54, of Charlotte, N. C., according to Highway Patrolman C. F. Merrill.

Hospitalized were Mrs. Pouncey, Mr. and Mrs. Bindeman, and three children of each couple. Mrs. Pouncey, 33, and her daughter, Betty, 4, were seriously hurt. Others hurt were David Bindeman, 6, Mike and Steve Bindeman, 2-year-old twins, and two Pouncey children, Ann, 7, and James 19.

State Advantages

Continue To Draw 'Gold From Hills'

A little more than two years ago, Leland H. Jones, then the new director of the State Planning and Industrial Development Board, was elected to his post.

At that time he commented on the rush of new plants into the State to take advantage of the "gold" in the form of iron ore, coal, productive labor, water, power, and other resources.

Now, after two years in office, he is even more enthusiastic about the industrial possibilities and the industrial prospects of his native state. He shows little patience for those who adopt a negative attitude regarding the continued growth of Alabama's industrial investment.

Rapid Expansion

"I believe in the future of Alabama," he says. "During the two years that I have directed this organization, more than \$300 million has been invested in new plants or expansion of existing industries in Alabama."

For the past six years, the total of new investment is more than one billion dollars. Already, during 1961, we have announced investments which indicate that this year could equal the record made in 1960, and even exceed it.

A new packing plant just announced for Montgomery is a sign of the growing importance of the cattle industry in the state. New feed plants in many areas also point up the rapid growth of poultry, cattle and hog production. The latest of these is a new feed mill to be built at Troy.

As more wells are added to Alabama's petroleum fields, there is additional impetus for the petrochemical industry to establish plants in the state. Already a refinery in Tuscaloosa produces nearly seventy products. A chemical plant at McIntosh, in Washington county, is now under construction. A new plant, now in its early stages, is a city the size of Mobile, or Montgomery. Other chemical plants are looking at Alabama now.

"This interest in Alabama on the part of industry is matched by our interest in industry," Jones says. He states that the Alabama government is doing its best to attract new industry to the state.

Water is Attraction

The abundant water in Alabama is another compelling attraction for industry, according to Jones. Noting that a little more than 39 years ago there was not a single paper mill in the state, he says that the investment of the eight large paper mills now in Alabama is almost one billion dollars, and paper mill employment provides jobs for about 20,000 Alabamians.

Small Plants Important

Just as important are the many smaller plants which continue to come into Alabama," Jones added. Some of these come because of the proximity of the raw materials, as did a new fibre processing plant just located in Foley.

Some come because they can depend on a loyal and rooted body of labor, people who live in and around small Alabama towns where they own their homes and intend to stay. Many come because of the advantages of a snow-free and ice-free climate.

"The fact is that these people like Alabama for exactly the same reasons that we like Alabama," Jones comments. "They discover that living conditions are good here, and they like the recreation possibilities offered by the hundreds of lakes and streams, the year-round golfing, the excellent hunting and other attractions of the state. They also like the ability to get to the job without fighting the commuting traffic for hours."

Another factor cited by Jones is the central position of Alabama for manufacturing plants which wish to serve the Southeast market, fast-growing market areas in the nation. Alabama is strategically situated to serve this whole region with short hauls and low transportation costs.

Some come because they can depend on a loyal and rooted body of labor, people who live in and around small Alabama towns where they own their homes and intend to stay. Many come because of the advantages of a snow-free and ice-free climate.

"The fact is that these people like Alabama for exactly the same reasons that we like Alabama," Jones comments. "They discover that living conditions are good here, and they like the recreation possibilities offered by the hundreds of lakes and streams, the year-round golfing, the excellent hunting and other attractions of the state. They also like the ability to get to the job without fighting the commuting traffic for hours."

Another factor cited by Jones is the central position of Alabama for manufacturing plants which wish to serve the Southeast market, fast-growing market areas in the nation. Alabama is strategically situated to serve this whole region with short hauls and low transportation costs.

Water is Attraction

The abundant water in Alabama is another compelling attraction for industry, according to Jones. Noting that a little more than 39 years ago there was not a single paper mill in the state, he says that the investment of the eight large paper mills now in Alabama is almost one billion dollars, and paper mill employment provides jobs for about 20,000 Alabamians.

Small Plants Important

Just as important are the many smaller plants which continue to come into Alabama," Jones added. Some of these come because of the proximity of the raw materials, as did a new fibre processing plant just located in Foley.

Dedicated To Development
of Elba and Coffee County

Zion Chapel Coach Named Elba High School Principal

Levy Lamar Foley has been named principal of Elba High School by the Elba City Board of Education.

Foley has served as senior high science and mathematics instructor and as basketball coach at Zion Chapel high school for the past six years.

He is a 1953 graduate of Troy State College, where he received his BS degree in education. He received the MS degree in education from Auburn University in 1958.

The 32-year old Elba native served as president of the Coffee County Education Association in 1959-60 and was named vice president of the group in 1960-61.

Outstanding in science work in Coffee County, Foley was named for a 10-and-one-half-week study program with the National Science Foundation Summer Institute at Auburn University, but had to decline the offer because of illness in his family.

Other Vacancies
The appointment of Foley as Elba principal followed by a few days the selection of Earl Max Bowden of Superior, Ga., as superintendent of Elba City Schools. Bowden succeeded S. J. Casey, veteran educator of 28 years, who resigned to enter private business in Dothan.

Several vacancies at Elba High School have been filled, including the appointment of Charles Jacobs, former head of the science department of New Brockton High School, to head the science department at Elba.

INDICATIONS OF A BOUNTIFUL HARVEST time

B & PW Discusses Cancer, Communism

The Elba Business and Professional Women's Club met Monday night, July 10, at Paul's Cafe.

The business session was presided over by Miss Gladys Clark, president. The program at the June meeting centered around cancer education. As a result of this informative program, presented by Mrs. Frances Neils, the club will take as one of its projects, educating the public about cancer.

All members were urged to bring another member to the next meeting.

"What is Communism?", a report edited by J. Edgar Hoover, was given by Miss June Ray Jones.

Members present included: Miss Gladys Clark, Miss Lillie Harper, Mrs. Myrtle Sellers, Mrs. Bessie Bullard, Mrs. Olin Kendrick, Mrs. Adeline Prescott, Miss Frances Comer, Mrs. Sara English, Miss June Ray Jones, Miss Eleanor Lee, and Mrs. Walter Cox.

NO ACCIDENTS

Mayor Dozier Roberts expressed gratification this week to the people of Elba and Western Coffee County for observing safe driving during the Fourth of July weekend when "there wasn't even a minor automobile accident or act of violence" in the area.

NEW RATES

New money order rates have been announced by Postmaster Robert Cooper. They are: orders for 1 cent to \$10 fee of 20c; \$10 to \$50, fee of 30c; \$50 to \$100, fee of 35c. Special delivery fees are also revised on mail other than first class and air mail.

MEETING CALLED

A meeting was called by Legion Commander Haywood L. Grimes and Mrs. Maxwell Reeves, president of the Legion Auxiliary, for Wednesday, July 12, at the Legion Hut to plan for the National Guard Homecoming August 5.

RUSSELL REUNION

The Russell Family Reunion will be held at Lake Jackson, Florida, Sunday, July 16. All members have been asked to take a picnic lunch.

C. OF C. TO MEET

The Elba Chapter of Commerce membership meeting will be held next Tuesday, July 18, at Paul's Cafe.

LEGION TO MEET

The American Legion, Department of Alabama, will hold its 43rd annual Department Convention at the Russell Hotel, Huntsville, Alabama, July 21, 22, and 23, 1961.

DOWN THE DRAIN

When Ed Asar, administrator of the Alabama Alcoholic Beverage Control Board, was in Elba recently to address the Coffee County Peace Officers Association, he joined with Sheriff H. D. Tillman in pouring 100 gallons of moonshine into the sewers.

The illegal whiskey was seized in raids during the last several months.

CEMETERY WORKING

There will be a cemetery working at Pleasant Ridge Primitive Baptist Church Thursday, July 13.

COMMODITY INTERVIEWS

All persons in the Elba area receiving commodities, but who are not receiving a check from the Department of Penitentiaries and Parole, have been interviewed by Milton Heath to report for an interview, he said.

61st Anniversary Of Wedding Marked

Mr. and Mrs. C. B. McDowell and daughter, Mrs. Mary Newman, returned Sunday from a week's visit with relatives in Mo.

Mr. and Mrs. McDowell observed their sixty-first wedding anniversary in Carrolton, Mo. where they were married on June 28, 1900.

Zion Valedictorian Employed By Sears

Patsy B. Wambles, daughter of Mr. and Mrs. James C. Wambles of Jack, is now residing at the home of Mr. and Mrs. Hubert Wambles in Tallahassee, Fla., where she has a position as bookkeeper in the accounting department of Sears, Roebuck and Co.

Patsy attained this position within a week after graduating from Zion Chapel High School on May 18, 1961, as Valedictorian.

In her high school years, Patsy was selected by her teachers as Good Citizenship Girl.

In school she was also editor of the school Alumni, Secretary of the French Club, President of the FTA for two years, devotional leader of the Beta Club (she became a member at Elba) and remained a member for four years, as President of Sophomore Class, Favorite of Junior Class, Feature Editor of the Rebel Review, Senior Play, and in Who's Who was selected as "Girl With Best Personality," Most Intelligent, and "Best All-Around."

Mrs. Halle Boutwell is in charge of the program. A revival is planned as soon as the church is completely finished. The Rev. William Rayburn, pastor, has invited all former pastors and the general public to attend Homecoming.

Tractor Salesman Wins Phone Quiz

Monroe Mynard of the Elba Tractor Company, is the winner in this area of the microphone quiz program being conducted by Ford's Tractor and Implement Division for dealer salesmen.

Over 300 salesmen were called on nationally during a two-week period for answers to questions about Ford tractors and equipment. Mr. Mynard provided the right answers to the questions he was asked.

Revival Meetings Now Are Under Way

The Annual Homecoming was held at the Alberton Baptist Church last Sunday.

In the afternoon Pres. J. W. Eady spoke at the Ordination Service when Shelton Moore, Luther Smith, Buford Senn and Ed Searles were ordained as deacons.

The revival will continue on through this week with morning and night services, with the Rev. Eady of Mt. Pleasant Church giving the evangelistic message.

J. L. Hogan is pastor of the church.

New Chapel Baptist church, with Rev. Monroe Nelson as pastor, has invited the public to attend their services this week. The Rev. Welby Borenman of Elba is the guest speaker.

The County Line Methodist Church is also holding revival services this week with the pastor, Rev. Ralph Bullington, also pastor of the Opp Memorial Methodist Church, preaching.

Rev. Don Billberry, pastor of the Kinston Baptist Church, is the guest speaker at the Ino Church this week.

Iron Ore Tests Are Found Favorable

The results of iron ore tests in Crenshaw and Barbour counties are favorable, according to an Associated Press dispatch from Mobile, where Geologist Philip E. Lamoreaux said tests "much more encouraging than expected."

"There is a very good possibility that this ore may extend all the way from the Chattahoochee to the Gulf of Mexico," he said. "The ore is limonite, a brown iron ore. It differs from the red hematite ore found in the Birmingham area. The deposits have been known to exist for more than a century but were of limited commercial value until recent development of the electrolytic ore furnace, along with huge earth-moving equipment to make strip mining economical, the A. P. said."

Old Hebron Church Has New Building

A new and finer Old Hebron Baptist Church will be dedicated next Sunday to replace the building damaged by a tornado a few months ago.

The new structure is of brick to replace the frame structure damaged in a storm which swept across the northern part of the county. Although it is not complete, Homecoming services will be held next Sunday.

Mrs. Halle Boutwell is in charge of the program. A revival is planned as soon as the church is completely finished. The Rev. William Rayburn, pastor, has invited all former pastors and the general public to attend Homecoming.
